Sir:

In response to the Restriction Requirement of May 19, 2004,
Applicants hereby elect Group II, Claims 3-6, 8 and 10, with traverse.

Applicants respectfully request withdrawal of the Restriction
Requirement. No unduly extensive or burdensome search would be required
to examine the various claims of the noted Groups in the same
application. MPEP §803 states:

"If the search and examination of an
entire application can be made without
serious burden, the Examiner *must*
examine it on the merits even though
it includes claims to distinct or
independent inventions." (Emphasis

added)

In the present case, the search for all pending claims together would not
be burdensome.

Moreover, from the standpoint of costs to the Applicants involved
in filing, issuance and maintenance fees relating to separate
applications if the present Restriction Requirement is maintained, it is

clear that there is substantially more burden on Applicants by imposing the present Requirement than on the Patent Office if the Requirement were withdrawn.

In addition, it is noted that to require the claims of the various Groups to issue in separate patents would result in inconvenience to the public by necessitating reference to more than one patent during searching, to review closely related subject matter.

Therefore, withdrawal of the Restriction Requirement is warranted.

Reconsideration and withdrawal of the Restriction Requirement are respectfully requested.

Respectfully submitted,

James E. Ledbetter
